6	9	-	-	325

* This Height and Weight Chart does not apply to Golden Promise® underwriting. Please see the Golden Promise® Minimum & Maximum Build Chart. Please call underwriting with any questions.

** Please see other Super Preferred and Preferred criteria in this brochure.

*** The standard weight column is used as an underwriting guideline to identify weights usually acceptable at standard premium rates. Other important underwriting factors such as additional medical history and profile credits and debits may determine a more or less favorable final underwriting decision.
